Re: *Amendment of Part 2 of the Commission's Rules to Allocate Spectrum Below 3 GHz for Mobile and Fixed Services To Support the Introduction of New Advanced Wireless Services, including Third Generation Wireless Systems - ET Docket No. 00-258*

NOTICE OF ORAL EX PARTE COMMUNICATION

Dear Ms. Dortch:

Yesterday, Karen B. Possner of BellSouth Corp. and the undersigned, representing the Wireless Communications Association International, Inc. ("WCA"), met with Jennifer Manner of Commissioner Abernathy's office to discuss the letter submitted on April 7, 2004 by BellSouth, Sprint Corp. and WCA suggesting a new alternative for resolving the issues pending in the *Third Notice of Proposed Rulemaking* in ET Docket No. 00-258 regarding relocation of Multipoint Distribution Service ("MDS") licensees from the 2150-2162 MHz band as part of the Commission's effort to free spectrum for Advanced Wireless Services ("AWS").

During the course of that meeting, the industry participants discussed that it has been more than three years since the MDS spectrum at 2150-2162 MHz was first targeted for relocation, spoke of the adverse consequences the resulting regulatory cloud continues to have on the use of the band, reiterated that the MDS industry never sought to relocate from the 2150-2162 MHz band, and reviewed the efforts that the MDS industry has made over the past three years to identify relocation spectrum. They urged the Commission to move rapidly to consideration relocation of MDS consistent with the April 7th letter from BellSouth, Sprint and WCA.
